

## PRESS STATEMENT

Hello everyone,

This is Erricha Insan Pratisi, President of Indonesian Invention and Innovation Promotion Association (INNOPA). It's a great pleasure to greet all of you here today, as we celebrate creativity, ingenuity, and the spirit of innovation that drives us forward.

INNOPA is so proud and honored to participate in the prestigious iENA 2024 in Nuremberg, Germany, representing Indonesia, and also being appointed as Partner of iENA 2024. This year, we bring 4 projects with almost 50 people in iENA Fair. Three projects are coming from one of Indonesia state-owned oil and gas company, a reputable PT Kilang Pertamina Internasional. One project is coming from the University students, sponsored by our Ministry.

In this special occasion, we gather not just to showcase remarkable inventions, but to honour the visionaries behind them—individuals who dared to think differently and turn their ideas into reality. Each exhibit you will see represents countless hours of hard work, passion, and determination.

In a world that is ever-evolving, your inventions have the power to inspire change, solve pressing problems, and improve lives. Whether it's a ground-breaking piece of technology, a sustainable solution, or a creative tool, each invention has the potential to leave a lasting impact.

I would like to extend a heartfelt thank you to the iENA Organizers, International Federation of Inventors Association (IFIA), and everyone who has supported the successful of the event. Your commitment to innovation and support for our inventors is invaluable.

So, let's celebrate the brilliance of human creativity! Thank you, and let the Invention Show begin!
